"Our need for local leadership on environmental issues and other problems of concern has not gone away."

—Neil Snyder

NEIL works in Ithaca but chose to live in Groton because of its beauty and serenity. He has been involved in Groton community work for some time, especially in the areas of environmental protection and youth development.

Neil has a background in business and possesses management and leadership skills. He now works for a local grocery store. In the past, he served as a substitute teacher for the Ithaca City Schools, and he works with youth now as a Sunday school teacher.

WORKING FOR GROTON'S FUTURE NEIL SNYDER for Town Board

Neil has encouraged a more open government that is responsive to the public and listens to the people's concerns. He likes to say, "I won't just represent you, I will include you." This approachable attitude would be a breath of fresh air on the Groton Town Board.

NEIL'S PRIORITIES

- **ENVIRONMENTAL PROTECTION:** Let's protect agriculture and Groton's green spaces while promoting green technologies and solar initiatives.
- **ACCESSIBLE GOVERNMENT:** Groton residents should be heard, and decisions should not be made behind closed doors.
